- A list of fees can be found [Fees for Visa Services webpage](#).

Visa processing times

Immigrant visa processing times can be different. There may be unexpected matters that become apparent only at the during your interview that require additional time and processing. Usually, it takes 15 business days to print your visa and prepare your visa package (if applicable) after the consular officer reviews and adjudicates your case.

After Your Interview

Consular Officers can make decisions on visa applications only after they review the formal application and interview the applicant.

- ***There is no guarantee that you will receive a visa.***
- ***Do not*** sell your house, car or property; resign from your job; or make non-refundable flight or other travel arrangements until you receive your immigrant visa.

If more information is needed

Sometimes Consular Officers cannot make decisions on visa applications because they need to review additional documents, or the case requires further administrative processing.

- When [administrative processing](#) is required, consular officers tell applicants at the end of the interview.
- The time the administrative processing takes can be different, based on the individual circumstances of each case.

Except in cases of emergency travel (i.e., serious illnesses, injuries, or deaths in your immediate family), before you make inquiries about status of administrative processing, please wait at least 180 days from the date of interview or submission of supplemental documents, whichever is later.

After Your Interview

Entering the United States

When you travel to the United States, the primary (or principal) applicant must enter **before or at the same time** as derivative family members with visas.

- A visa does not guarantee entry into the United States.
- The Department of Homeland Security, U.S. Customs and Border Protection (CBP) officials have authority to grant or deny admission.
- Learn about admission and entry requirements on the [CBP website](#).

When you are admitted, you will enter as a Lawful Permanent Resident (also called a green card holder) and you are permitted to work and live in the United States.

Getting a Green Card: Your Form I-551 Permanent Resident Card (also known as a green card) will be automatically mailed to the address in the United States that you wrote in your visa application form.

- This is a very important document that proves you have permission to reside in the United States.
- *If you plan to travel outside the U.S. **before** your green card arrives, review the [USCIS](#) and [CBP](#) websites for rules about what documents you need to reenter the country.*
- We also recommend that you check with the airline to make sure you follow their rules.
- *Once your card is issued, you should not stay outside of the United States for more than one year. If you do, you will lose your status as a Lawful Permanent Resident.*

Children's Issues:

- In the United States, children are required to have certain vaccinations before they can enroll in school. Bring your child's complete vaccination records with you to the United States.
- If your child is adopted, you have full custody as a result of a divorce, or you share custody with another parent, bring a copy of all adoption or custody papers from the court with authority in your home country. You will need these papers (translated into English) for issues such as school enrollment, medical care, and eventual citizenship.
